

This document will show you how to add files to the Google Drive ™ app so that you can share them. Using the Google Drive™ app makes sense because:

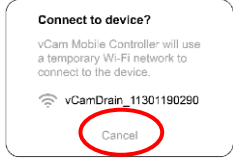

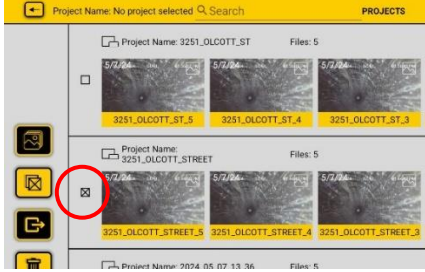

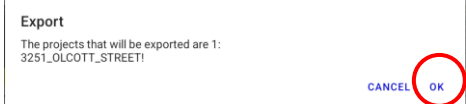

- The maximum file size an Email can handle is [25MB](#).
- The maximum size file you can send by text [depends on your carrier](#).

As a rule, you should stick to texting pictures and using a file-share app to share videos.

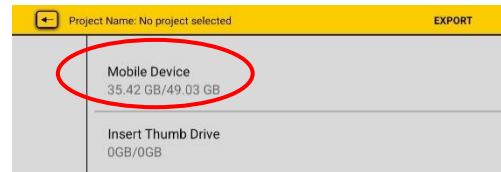

We highly recommend that you learn how to set up your Google Drive™ app for the best user experience. For example, you should learn how to add and structure folders to keep things organized. This link will help you get started with setting up your Google Drive™. [Google](#)

### Using Android tablets and phones

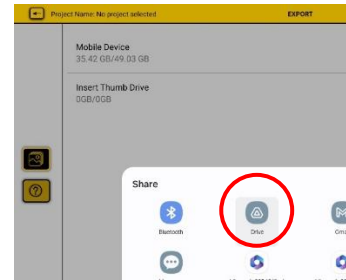

After you've created your video and JPEG files, disconnect from the control module or reel. You cannot send emails or share files while connected to the control module or reel.

<p>1. Disconnect from the control module or reel by tapping the Step Back/Exit icon.</p>	
<p>2. Return to the VMC app Start screen and select the product with the files in its Gallery.</p>	
<p>3. Tap on <b>Cancel</b> when asked if you want to connect again. <b>Please do not connect to it.</b></p>	
<p>4. Tap on the Gallery icon to enter the Gallery</p>	
<p>5. In the Gallery, tap on the <b>Share</b> icon. It will turn from yellow to black, showing that it is active, and checkboxes will appear</p>	
<p>6. Tap on the box to mark the project you want to share.</p>	
<p>7. Tap the Share icon again and OK in the Export confirmation box.</p>	

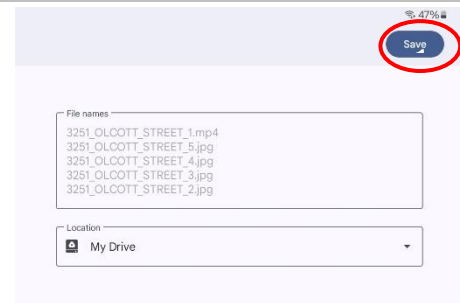

8. In the Export screen, tap on Mobile Device.

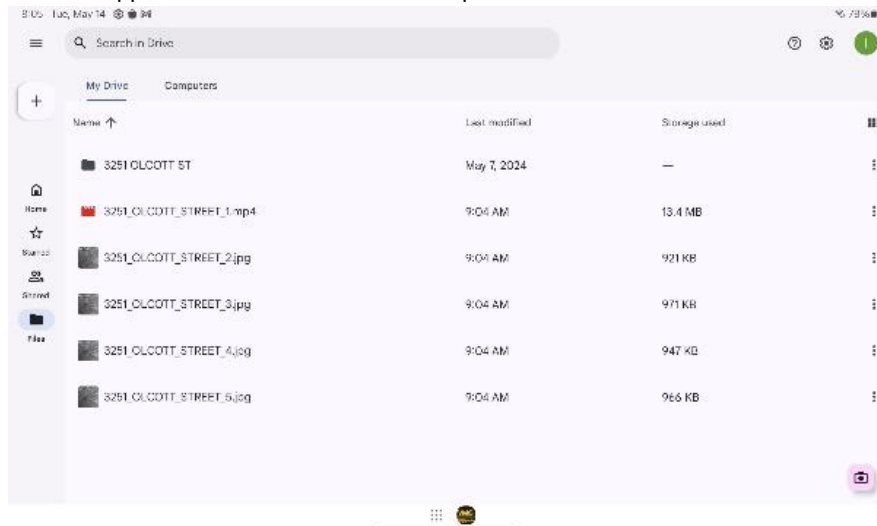

9. Tap on the Google Drive™ icon.

10. Tap on Save. You will be returned to the VMC app to see a progress indicator.

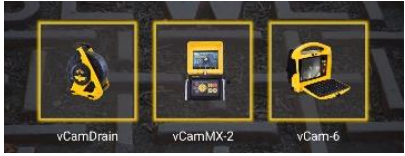

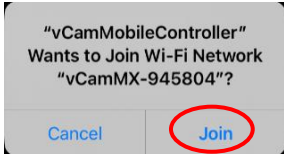

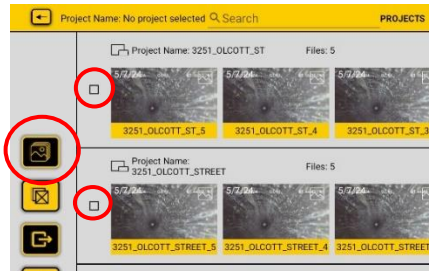

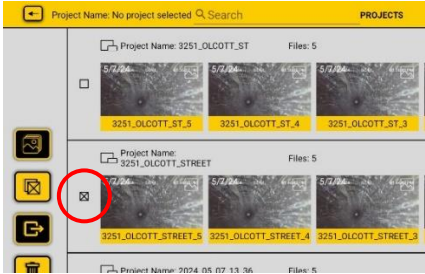

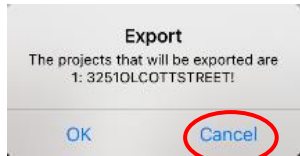

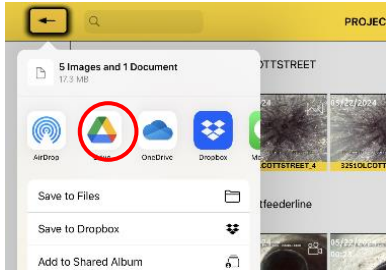

11. Open your Google Drive™ app and see the files that were exported into it.

## Using Apple tablets and phones

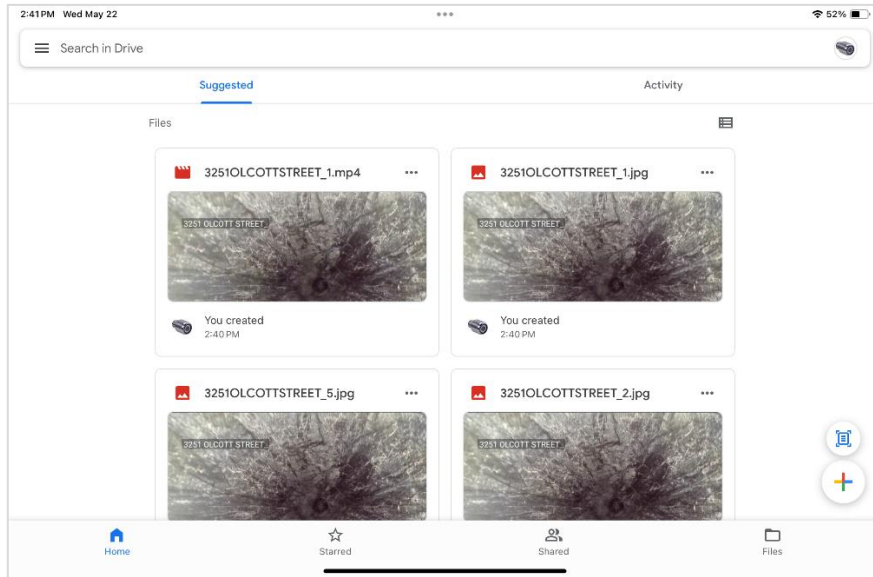

After you've created your video and JPEG files, disconnect from the control module or reel. You cannot send emails or share files while connected to the control module or reel.

<p>1. Disconnect from the control module or reel by tapping the Step Back/Exit icon.</p>	
<p>2. Return to the VMC app Start screen and select the product with the files in its Gallery.</p>	
<p>3. Tap on <b>Cancel</b> when asked if you want to connect again. <b>Please do not connect to it.</b></p>	
<p>4. Tap on the Gallery icon to enter the Gallery</p>	
<p>5. In the Gallery, tap on the <b>Share</b> icon. It will turn from yellow to black, showing that it is active, and checkboxes will appear</p>	
<p>6. Tap on the box to mark the project you want to share.</p>	
<p>7. Tap the Share icon again and OK in the Export confirmation box.</p>	
<p>8. Tap on the Google Drive™ icon.</p>	

9. Tap on UPLOAD.

10. Open your Google Drive™ app and see the files that were exported into it.
